

**HEALTH & LEISURE**

**CONTRACT:** AELTCC Wimbledon  
Centre Court Enabling

**CONTRACT PERIOD:** 11 Weeks

**CLIENT:** Galliford Try Construction  
All England Lawn Tennis Club  
Church Road  
Wimbledon  
London  
SW19 5AE

**VALUE:** £0.7 million

**CONTRACT DESCRIPTION:**

The project comprised of enabling works in preparation for the construction of the new entrance turnstile building and future centre court roof construction. Works included demolition, taking up of existing hardstanding areas and reinstatement, reduced level excavation, construction of concrete ground beams, floor slabs, upstands and service pits, the installation of major new drainage, communication and utility duct systems including all associated works. The project required careful planning and execution in order to minimise disruption to the surrounding tennis club and to maintain the completion date, as works under no circumstances were to affect the 2005 Wimbledon tennis championship.
