

HEALTH & LEISURE

CONTRACT: AELTCC Wimbledon
Southern Apex

CONTRACT PERIOD: 18 Weeks

CLIENT: Galliford Try Construction
All England Lawn Tennis Club
Church Road
Wimbledon
London
SW19 5AE

VALUE: £0.3 million

CONTRACT DESCRIPTION:

The project comprised of the construction of three new tennis courts to the southern apex of the tennis club. Works included demolition, taking up of existing hardstanding areas and reinstatement, reduced level excavation, installation of piling mat, breaking down pile tops, excavation and foundation works for the construction of a brick perimeter wall, concrete beam and channels surrounding the tennis courts and concrete retaining walls. We also installed new drainage, communication and utility duct systems including the installation of a large fuel storage system and outfall petrol interceptor. The project required careful planning and execution in order to minimise disruption to the surrounding tennis club and to maintain the completion date, as works under no circumstances were to affect the 2005 Wimbledon tennis championship.
