

**HEALTH & LEISURE****CONTRACT:** Hammersmith Hospital**CONTRACT PERIOD:** 35 Weeks**CLIENT:** Mansell Construction Services Ltd  
Roman House  
263-269 City Road  
London  
EC1V 1JX**VALUE:** £1 million**CONTRACT DESCRIPTION:**

The project involved the construction of the new renal building for the Hammersmith Hospital NHS Trust. Our works were carried out within an extremely restricted area and included the excavation and construction of reinforced concrete pad foundations and perimeter ground beams, construction of a total of 3 number lift pits including a basement area and retaining walls, installation of a 2000m<sup>2</sup> reinforced concrete ground floor slab, and the installation of a new drainage, communisation and service duct systems. The works required careful coordination in order to minimise disruption to the surrounding area, as the development was situated within the existing hospital complex.
