

EDUCATION**CONTRACT:** Newbury College**CONTRACT PERIOD:** 48 weeks**CLIENT:** Try Construction Ltd
Cowley Business Park
Cowley
Uxbridge
Middlesex
UB8 2AL**VALUE:** £2 million**CONTRACT DESCRIPTION:**

The initial site works involved the cut and fill of a ridge and furrow meadow to create a level site. The shortfall of material was supplemented from the construction of a lined balancing pond approximately 500 metres distant but within the site boundaries. In total 40,000m³ of material was moved on site within the first few weeks.

In addition to the earthmoving, drainage for the site consisted of 5,000m of 150 mm to 900 mm diameter pipes for both the foul and storm drainage which provided drainage for the current project and future works. Work also included 1,500m of access road, 15,000m² of car parking and hard standings along with extensive landscaping works. The building works included 900m³ of internal reinforced concrete slab and 250m³ of reinforced concrete ground beams.
