

HEALTH & LEISURE

CONTRACT: Bethlem Royal Hospital,
Beckenham

CONTRACT PERIOD: 80 Weeks

CLIENT: Interserve Building
395 George Rd,
Erdington, Birmingham
B23 7RZ

VALUE: £2.9 million

CONTRACT DESCRIPTION:

Located in the extensive grounds of a medium security hospital, this development was undertaken in three main areas located across the entire hospital complex with service & utility runs spanning between all three. Drainage & utility runs, pad foundations and concrete floor slabs for the main areas were completed. Occupational therapy gardens were constructed along with a main hospital building with a separate administration block and a grounds man's compound.

Two access roads, parking facilities & pedestrian walkways were also completed as part of the works.

Our scope of works included the construction of gabion retaining walls. These were constructed along the driveway and along the fire access road which required specialist skilled operatives as did the extensive landscaping works especially as much of the work was done along side
