

COMMERCIAL**CONTRACT:** Oxford Science Park**CONTRACT PERIOD:** 42 Weeks**CLIENT:** Shimizu Europe Ltd
Hithe House
200 Shepherds Bush Road
London
W6 7NY**VALUE:** £1.5 million**CONTRACT DESCRIPTION:**

The work included 1,000m³ of reinforced concrete foundations for two prestigious office developments and a multi storey car park. Also included were two lift shafts in both buildings and reinforced concrete floor slabs to all floors. The ground floor slab was constructed using metal fibre reinforced concrete. The approximate volume of concrete in the floors was 1,000m³.

Externally the notable features were the gabion walls (approximately 500m³) used to support an existing live carriageway and the high quality block paving, slabs and granite setts. The overall area was approximately 2,000m².
