

**EDUCATION**

**CONTRACT:** St Paul's Catholic College  
Burgess Hill, Sussex.

**CONTRACT PERIOD:** 74 Weeks

**CLIENT:** Gleeson Construction Services

**VALUE:** £2.1 million

**CONTRACT DESCRIPTION:**

Construction of a new 800 Pupil, Secondary School in Burgess Hill West Sussex. Works consisted of a large cut and fill operation to bring the project area to a common level. Foundations were typical CFA piles with pilecaps. Elaborate foul and surface water drainage which encompassed the land drainage to 6 sports pitches (3 football and 3 rugby) all coming to a sewer connection which involved large culvert sections being installed within a heading which passed underneath a live dual carriage way. Remainder of works consisted of all ground floor slabs and all relevant site services. Within the package of works was 278 Highway works where a new junction had to be constructed off of an existing roundabout with an adoptable access road with all street lighting etc. Hard landscaping consisted of footway areas and a car park to accommodate 250 cars.
