

INDUSTRIAL**CONTRACT:** Sony Village, Basingstoke**CONTRACT PERIOD:** 21 Weeks**CLIENT:** Waring Contractors Ltd
Gatcombe House
Hilsea
Portsmouth
PO2 0TU**VALUE:** £0.35 million**CONTRACT DESCRIPTION:**

Initial works included a 12,000m³ muck shift operation carried out on site, in order to extend the existing car park and create additional car parking spaces. This involved carrying out the works in a number of phases, with extensive on site traffic management to enable existing users of the building to safely park and circulate. The excavated areas were prepared to receive new drainage, sub base and surfacing. This was phased to suit the client's requirements to maintain sufficient car parking spaces for existing employees. During the whole of the construction phase the office block was in use and the works required careful coordination to enable us to do our work and the client to have continued access.
