CM8 3TH

VALUE: £0.79 million

CONTRACT DESCRIPTION:

This project comprised of the construction of a warehouse together with an extensive external service yard concrete slab. Our scope of works included the demolition of existing domestic buildings, considerable reduced level excavation (circa 25,000m³), the construction of reinforced concrete pad foundations, mass-filled concrete strip foundations, construction of 3 retaining walls, preparation and construction of the internal reinforced concrete ground floor slab (circa. 2,125m²), preparation and construction of the external yard slab (circa. 5,000m²), the installation of a new storm and foul drainage system (including connections into the existing sewer), and communication and utility service systems. We also carried out external finishing works, comprising of block-paving, topsoiling to batters, preparation of a car park and footpath, and detailed 278 Highway works for the construction of 2Nr vehicular access crossovers onto the public highway.
